Specialties, variantes and accessories for handlebar adapter system

The variable handlebar adapter system offers different types of sockets that enable you to mount the adapter elsewhere on your bike. So you can use the big accessory range either on handlebar, seat post, stem head tube or vertical tubes. Clamps and distance sets allow for the use on many diameters and shapes.

**MULTI CLIP** 0211 M  
Creates 40mm extra space (Ø 26mm) for cycle computer, light, GPS, mapholder or e-bike display. The clip can be easily mounted and removed without the need for tools. Also possible in combination with our Distance Set. Ø 26mm

**MULTI CLIP PLUS** 0211 MP  
Extendable space on both sides from 4cm up to 11,5cm (Ø 23mm) e.g. for further accessories.

**MULTI CLIP E** 0211 ME  
Specifically designed to carry e-bike displays and adapter with accessories in the center position. Extensions on both sides from width 4cm to 6/8cm.

**HANDLEBAR ADAPTER STANDARD**

The Extender allows attaching the handlebar adapter and its various accessories to the seatpost. Using the Extender frees up space on the handlebar and makes sure that your vision and the bike's steering are unobstructed. We especially recommend using the Extender for backpacks and matchpacks (max. 5kg).

To ensure you get the adapter to best suit your specific bikes and needs, backpacks, matchpacks and Vario Rack come without an adapter.

**FREEPACK META II**

A real all-rounder of excellent quality with many practical features: Adjustable helmet holder, hidden in an extra compartment, yellow raincover, net compartments on both sides, several inner compartments, detachable key ring and light holder.

A removable, chromium-plated frame transfers the backpack's weight onto the KLIICKfix adapter, max. 5kg.

29 x 47 x 24cm, 26L, 1450g, max. 5kg.

**FREEPACK CITY**

The every-day companion in the city. Outer and inner compartments with zipper, side compartments, separate inner compartment for valuables and adjustable shoulder straps with integrated cell phone bag. Clicks onto Extender.

No more sweaty back while biking! The adapter plate allows a slanting backpack position that gives the biker more space on the saddle. The plate does not cause any discomfort when the bag is on your back.

26 x 38 x 15cm, 18L, 1100g  
0277 GR

**FREEPACK SPORT**

Say goodbye to riding with a sweaty back. This sportive click-on backpack is ideal for mountain bikes and all bikes without carrier in combination with Extender. The integrated adapter plate allows for a slanting backpack position that gives the biker more space on the saddle and is not noticeable when the backpack is worn.

With several zipper- and net-compartments, backlight holder, raincover and extra compartment adjustable for helmet.

0237 S black

**Foldable transportation bag** for standard carriers, thoughtfully and functionally designed. Whether at college, office or shopping – the Cargo offers its volume only when needed. Highly durable due to its solid base and an internal diagonal aluminium frame. By a smart folding mechanism the aluminium handle slides into the flat fixation position. The slight inclination of the bag increases legroom and comfort (second rail position for left/right use). Front-bags, inner compartments, mobile bag, raincover, shoulderbelt and Modulrail included.

0236 SW black

All bags directly lock onto standard carriers. The adjustable, sliding hooks allow you to position each rail precisely and adjust it to different diameters. The lower rail prevents the bag from swinging sideways. Characteristics of our three rail types:

**KOMFORT RAIL**

Classic, time-proven rail with solid, removable handle. Continuously adjustable hooks and locking mechanism for standard carriers Ø 8-13mm. The solid removable handle allows for comfortable, single-handed use.

**UNIVERSAL RAIL**

Adjustable rail with flexible handle for all carrier sizes. Comes with adjustable standard hooks that fit Ø 8/10/12mm and additional 16mm hooks e.g. for Kettler bikes. The Universal rail locks in automatically when it is set onto the carrier.

With special GTA hooks for the Universal Rail, you can use the bags also on the carrier adapterplate.

**MODUL RAIL**

Professional aluminium rail with continuously adjustable locking mechanism for Ø 8-16mm. Bags are simply hung into the carrier. The spring borne latches automatically adjust to the carrier's diameter when closed.

The advantage: no more distance pieces or tools are needed.

**VARIO TOP HOOKS**

Automatically adjustable hooks for carriers Ø 8-16mm. The hook in the middle secures the accessory even on rough roads. Since the hooks sit flush with the rack, a basket, topcase or box can be used simultaneously.

**ULTIMA COMPACT**  

A practical all-rounder that can also be used as a front pannier thanks to its smaller format. Wet clothes are easily stored in an outer compartment with net material for air access. Main compartment with roll closure, central tension belt, side reflectors and edge guard.
